citizen sourced data

participatory technologies for redeveloping informal settlements

Urban Library Event Thursday, February 8, 12:00-13:00

United Nations World Urban Forum 2018 Kuala Lumpur, Malaysia

This session presents research about data democratization, and the processes and technologies through which data are visualized and applied to urban design in the Latin Global South. Hosted by Kristine Stiphany and Peter M. Ward, the session introduces the relationship between the Latin American Housing Network (www.lahn.utexas.org) and the Chapa Urban Lab (www.chapa.io), and provides attendees with the opportunity to utilize their cellular technology for a demonstration of ComuniDADOS v2, a digital tool constructed in the context of a National Science Foundation study about housing and urbanization in São Paulo, Brazil.

Kristine Stiphany is an assistant professor at Texas Tech University College of Architecture. Peter M. Ward is the C.B. Smith Sr. Centennial Chair in U.S.-Mexico Relations and Professor of Public Affairs and Sociology at The University of Texas at Austin.
