College of Architecture

TEXAS TECH COLLEGE OF ARCHITECTURE

BOX 42091
LUBBOCK, TX 79409

DISTANCE

From furniture and buildings to systems and territories, *DISTANCE* examines the interstitial space between and beyond the thematic outposts of architecture discourse. Spaced across hundreds of miles of the West Texas region, the Texas Tech College of Architecture Spring 2018 lecture and events series will take place across two cities—Lubbock and El Paso—to embrace an expanded audience and uncover new ground for the discipline of architecture.

All lectures at TTU COA Lubbock will be held in the College of Architecture first floor gallery. For more information on the lecture series please visit the TTU COA website at: <http://arch.ttu.edu>. TTU El Paso will host the 5th annual AULA (Latin American Architecture) Symposium. Keynote events will be held at the El Paso Museum. For more information on the Porous Borders AULA Symposium please visit: <https://www.depts.ttu.edu/elpasar/arch>.
